**Results are based on telephone interviews conducted May 3-6, 2012 with a random sample of 1,024<sup>2</sup> adults, aged 18+, living in all 50 U.S. states and the District of Columbia.**

**For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ±4 percentage points.**

**For results based on the sample of 534<sup>2</sup> national adults in Form A and 490<sup>2</sup> national adults in Form B, the maximum margins of sampling error are ±5 percentage points.**

**Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample includes a minimum quota of 400 cell phone respondents and 600 landline respondents, with additional minimum quotas among landline respondents by region. Landline numbers are chosen at random among listed telephone numbers, cell phone numbers are selected using random-digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.**

**Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, and**
