

USA TODAY/GALLUP POLL

ELECTION 2012 SWING STATES POLLING-- WAVE 7

Results are based on telephone interviews conducted June 22-29, 2012, on the Gallup Daily tracking survey, with a random sample of 1,354 adults, aged 18+, living in Colorado, Florida, Iowa, Michigan, Nevada, New Hampshire, New Mexico, N

Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, phone status (cell phone only/landline only/both, having an unlisted landline number, and cell phone mostly). Demographic weighting targets are based on the March 2011 Current Population Survey figures for the age 18+ non-institutionalized population living in telephone households in the 12 battleground states. All reported margins of sampling error include the computed design effects for weighting and sample design.

Question(s) were asked of a random half-sample of the Gallup Daily tracking survey.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.
