GALLUP POLL SOCIAL SERIES: GOVERNANCE

-- FINAL TOPLINE --

Timberline: 937008
H: 706
Princeton Job #: 13-09-013

Jeff Jones, Lydia Saad
September 5-8, 2013

Results are based on telephone interviews conducted August 7-11, 2013 with a random sample of 1,510 adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, one can say with 95% confidence that the margin of error is ± 3 percentage points.

For results based on the sample of 725 national adults in Form A, the maximum margins of sampling error is ± 5 percentage points.

For results based on the sample of 785 national adults in Form B, the maximum margins of sampling error is ± 4 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

6. What do you think is the most important problem facing this country today? [*OPEN-ENDED*]
